About Us

With "Making people able to enjoy modern health and safe digital life" mission, our company found on 2015, applying GPS and GSI technology building high-end gps and health tracking products include personal, pets, vehicles and assets supply to golbal partners in last 9 years.

2015 — Found company
Set up company with strong R&D team.

2017 — SCM Team
Focusing on good product sourcing.

2019 — Oversea Office
Set up offices in Thailand & Malaysia

2021 — Invest Factory
Produce own product best quality control.

2024 — Waiting for You
Join with us, bring safe&health to people

Our Advantages

As one of leading GPS and health tracking products manufacturer, cutting-edge tech and advance production process control standards ensure high quality and good performance products. Meanwhile, global rich experienced sales and support teams provide 7*24 best support and after-sale service.

ISO9001 Standard
Modern DIP produce line and SMT line passed ISO9001 standard, ensure high quality.

5+ Production Lines
Strict quality control, experience staffs, complete production and testing equipment.

9+R&D Experience
In house R&D team hasover 9 years rich experience in world renowned companies.

30+ Engineers
Experienced designer, hardware engineer, software engineer, sales engineer.

100% Quality Priority
High quality materials, strong SCM and quality control teams guarantee the best quality.

Cost-Effectiveness
Rely on efficient R&D, production, SCM teams to control costs from production to delivery.

7*24 Support
Unlimited 7*24 hours sales and technical support, without any worry after-sales support.

Small Order Accept
No MOQ require, buyer, dealer, partners do not need to stock up, flexible business mode.

OEM/ODM Service
Unique design and exclusive sales not only hardware but also software one-stop solution.

Certificates

HUATEN driven by cutting-edge technology, in time pre and after sale service, high quality materials making products help us won reputation from partners, customers, and even competitors, all product able to pass CE, RoHS, FCC, global certificates.

Business Models

4 flexible business modes available for different kinds of customers depending on our strong R&D, SCM and global vision teams. Fast delivery, technical support and best after-sales service.

Device Purchase

- Small order acceptable
- No any MOQ required
- 1 year warranty
- Money security

Dealership Mode

- 5 Levels regional exclusive
- Integration technical support
- 1%~2% spare unit support
- Priority cooperation right

OEM Solution

- Brand on device/package
- Exclusive in your country
- Language customize
- Cost-effectiveness

ODM Solution

- Unique Design hardware
- Unique Design hardware
- Open BOM list
- One-Stop Solution

Successful Cases

“Customers win first, staffs win second.” To ensure the culture working perfectly from top to bottom, we required all Huaten people equipped highest criterion character of include fair and honest, solidarity and mutuality. It is our honour to cooperate with a lot of famous companies around the world.

OBD II GPS Tracker

VT400

- **Chipset:** Quectel 25
- **Location time:** Cold start: 45s; Hot start: 2s
- **Network:** 4G/2G support
- **WIFI Chip:** Quectel FC10
- **Flash memory:** 16M bytes
- **Working voltage:** DC 8V-18V
- **Electric Current:** Working:55mA; Sleep 2mA
- **Transmit Protocol:** TCP/IP

4G/3G/2G | WiFi Hotspot | Plug&Play | Real-Time Location | Geo-Fence | History Playback

Low Power | Sleep Mode | Vibration Alarm | OTA Upgrate | Dashboard Data | 23 Kind Alerts

Volt Protection | Maintain Reminder | RPM Checking | Smart Wakeup | Engine Health | Error Code

Mileage Report | Fatigue Driving | Fuel Consume | Driving Behavior | Trip Report | More
